

Topic: Everyday Materials
Year 1

What I should already know		Some Materials		Vocabulary																											
<p>I will have used different materials in the workshop area to make pictures and create models. I will have talked about them with the adults in early years.</p> 				<table border="1"> <tr> <td>material</td> <td>What something is made from</td> </tr> <tr> <td>hard</td> <td>Not easily squashed, cut, bent or scratched</td> </tr> <tr> <td>soft</td> <td>Easy to cut, fold or change shape</td> </tr> <tr> <td>stretchy</td> <td>Can be made longer, wider without breaking</td> </tr> <tr> <td>rigid</td> <td>Doesn't change shape easily</td> </tr> <tr> <td>flexible</td> <td>Can be bent without breaking</td> </tr> <tr> <td>dull</td> <td>Not bright or shiny</td> </tr> <tr> <td>rough</td> <td>Has uneven surface</td> </tr> <tr> <td>smooth</td> <td>Even surface – no lumps and bumps</td> </tr> <tr> <td>waterproof</td> <td>Keeps out water</td> </tr> <tr> <td>absorbent</td> <td>Soaks up liquid easily</td> </tr> <tr> <td>transparent</td> <td>Easy to see through</td> </tr> <tr> <td>opaque</td> <td>Not able to see through</td> </tr> </table>		material	What something is made from	hard	Not easily squashed, cut, bent or scratched	soft	Easy to cut, fold or change shape	stretchy	Can be made longer, wider without breaking	rigid	Doesn't change shape easily	flexible	Can be bent without breaking	dull	Not bright or shiny	rough	Has uneven surface	smooth	Even surface – no lumps and bumps	waterproof	Keeps out water	absorbent	Soaks up liquid easily	transparent	Easy to see through	opaque	Not able to see through
material	What something is made from																														
hard	Not easily squashed, cut, bent or scratched																														
soft	Easy to cut, fold or change shape																														
stretchy	Can be made longer, wider without breaking																														
rigid	Doesn't change shape easily																														
flexible	Can be bent without breaking																														
dull	Not bright or shiny																														
rough	Has uneven surface																														
smooth	Even surface – no lumps and bumps																														
waterproof	Keeps out water																														
absorbent	Soaks up liquid easily																														
transparent	Easy to see through																														
opaque	Not able to see through																														
Object and Material		Properties																													
<table border="1"> <thead> <tr> <th>Object</th> <th>Material it is made from</th> </tr> </thead> <tbody> <tr> <td> window</td> <td>glass</td> </tr> <tr> <td> coin</td> <td>metal</td> </tr> <tr> <td> table</td> <td>wood</td> </tr> </tbody> </table>	Object	Material it is made from	 window	glass	 coin	metal	 table	wood	<table border="1"> <thead> <tr> <th>Material</th> <th>Properties</th> </tr> </thead> <tbody> <tr> <td></td> <td>Hard, rigid, dull, rough (can be smooth), absorbent, opaque</td> </tr> <tr> <td></td> <td>Smooth, waterproof, soft, flexible (some plastics are rigid)</td> </tr> <tr> <td></td> <td>Smooth, waterproof, hard, rigid, transparent</td> </tr> </tbody> </table>	Material	Properties		Hard, rigid, dull, rough (can be smooth), absorbent, opaque		Smooth, waterproof, soft, flexible (some plastics are rigid)		Smooth, waterproof, hard, rigid, transparent														
Object	Material it is made from																														
 window	glass																														
 coin	metal																														
 table	wood																														
Material	Properties																														
	Hard, rigid, dull, rough (can be smooth), absorbent, opaque																														
	Smooth, waterproof, soft, flexible (some plastics are rigid)																														
	Smooth, waterproof, hard, rigid, transparent
