History

The Ancient Mayans lived in parts of Mexico and North America from around 2,600 BC. Some of their buildings such as pyramids and homes can still be seen today.

Mexico was part of the Spanish empire for three centuries. This is why Spanish is the main language of Mexico.

Locational Knowledge

Mexico is located in the continent of North America and shares borders with the United States and Guatemala.

States of America, Guatemala and Belize.

To the east, is the Gulf of Mexico, and to the west, the Pacific Ocean.

Key Facts

Physical Geography

Mexico is a land of extremes, with high **mountains** and deep **canyons** in the centre of the country, sweeping **deserts** in the north, and dense **rainforests** in the south and east.

A **river** called the 'Rio Grande' runs through parts of Mexico.

To the east is the Yucatan peninsula, which was once home to the Ancient Mayan civilisation.

Human Geography

Many Mexicans live in **towns** and **cities** in the central part of Mexico. Some Mexicans still choose to live in more **rural** areas on farms, as their ancestors did.

Arts and Culture

Music is popular in Mexico. Mariachi are Mexican musicians who play classical, folk music, usually with guitars, violins and trumpets.

The Day of the Dead (el Día de los Muertos) is a Mexican holiday where families remember their ancestors.

El Cinco de Mayo is another popular holiday that celebrates a special event in Mexican history.
