You can access this at your GP practice, or we can offer it in Nursery if your child attends a School Nursery. Please note, that if your child does not attend on the day we are visiting below, you will need to book an appointment with your GP.

The seasonal flu vaccine is part of a national programme to protect children, their families and communities against serious complications of influenza, reduce the spread of the virus and help protect vulnerable people. Flu Vaccination Consent Form

Does the nasal spray contain porcine?

Yes, but it is a very purified version which is barely detectable and because it is for medical purposes, it has been deemed permissible for use by the British Fatwa Council. This vaccine is only administered in those that require it for medical or cultural purposes. You must book an appointment at your GP for the injection; **we will only administer the nasal vaccine in nursery.**

After submitting consent, if your child attends the GP for the vaccination, you change your mind or if there are any health changes, **you MUST contact us on the number above.** Providing you enter a correct email address, you will receive email confirmation when your child has received their vaccination, including information and advice about common side effects your child may experience.
